## P40 MANIFOLD ASSEMBLY

702 South Persimmon, Suite 1C
Tomball, TX 77375
P: 281.397.7099
F: 281.397.7495

The K-Dyne Model P40 Manifold Assembly incorporates two Model P40 Pneumatic Pressure Switches mounted on a rugged ported base with the instrument tubing jumper installed between the low and high switches. This jumper allows the assembly to sense high and low set pressures using one process connection. An additional port on the manifold may be used as a test connection or gauge port.

RANGE CHART

| Spring Codes <br> Color | AVAILABLE RANGES—PSI (BAR) |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Standard <br> Spring | $10-$ <br> 115 | $20-$ <br> 230 | $50-$ <br> 450 | $200-$ <br> 750 | $500-$ <br> 1500 | $1000-$ <br> 3000 | $1000-$ <br> 3000 | $2000-$ <br> 5000 | $5000-$ <br> 10000 |
